Figures Exceed Greatest Expectation of the Republican Managers.

INDIANA NO LONGER DOUBTFUL.

Results of Poll in Kentucky Astounding Indicating a Republican Majority of 35,000—Maryland, West Virginia and Kansas Out of the Doubtful Column—Registration in Chicago Shows the Republicans are Aroused:

CHICAGO, Ill., Oct. 17 .- The thirtyday poll is practically complete in all western states, and the results have been forwarded to the Republican national headquarters here. The figures have exceeded even the most sanguine expectations of the party campaign managers. As a result of the returns Vice Chairman Henry C. Payne has taken Indiana out of the list of doubtful states, and has placed it in the list of states which he is certain will go for McKinley. The party managers, after going through the poll lists, talk most hopefully of Kentucky and Maryland, and place West Virginia in the list of states absolutely certain to be carried by the President. There is little or no doubt entertained at the Republican national camp of Kansas.

The national commuttee has not given out the figures of the Indiana poll, but its complexion can be judged by this comment by Vice Chairman Payne: "I am confident Indiana will give McKinley a larger majority than it did four years ago. There is no longer any room for doubt with regard to this state. The is a complete and accurate one, and for the first time I place this state in the McKinley column without reser-

The Kentucky Poll Astounding. The results of the Kentucky poll are

so astounding that the Republican na-tional committee has no officially given out the figures, for fear of being ac-cused of rainbow chasing. 't is un-derstood that the committee's canvasa indicates a fead of close to 35,000 for McKinley. This is too good to be true, and Mr. Payne remarked conservative-ly, in discussing Kentucky: "The completed poll shows that the state com-mittee is fully justified in claiming a majority of 10,000 for McKinley."

Senator Deboe, if Kentucky, is optim-stic. In the course of an interview he said: "There are 4,000 Populists in Kentucky who were with Bryan in 1896 who will be against him this year. Me-Kinley, I am sure, will get 6,000 Brown Democratic votes, at least. He will

certainly carry the state."

The Democrats, on the other hand, speak as confidently as ever of Kentucky. In reply to all Republican claims Urey Woodson, Democratic national committeeman, says briefly: "Kentucky is a Democratic state."

Kansas Sure for McKinley.

According to Vice Chairman Payne, of the Republican national committee the Kansas poll indicates that McKinley will carry the state by from 24,000 to 25,000. Dave Mulvane, the young, bustling national committeeman from Kansas, speaks as though he were as is Mulvane. He has, he says, \$10,000 which he is willing to bet, even money, The Democrats, it is understood, have

taken no reliable poll of Kansas, but Manager Johnson, of the Democratic national committee, but this to say "After I returned to Chlesgo from our Kansus City convention I made the prediction that Bryan would carry that state by 30,000 votes. I have no reason to change my opinion."

No Doubt as to West Virginia.

Of West Virginia the Republicans will not admit they entertain a doubt as to the result as far as the electoral vote gres. But as to the legislature, that is another matter. Postmaster General Smith, who was in Chicago today after an extensive speech-making four of West Virginia, sold:

"In West Virginia there is a perfect unanimity that the state will go for McKinley. The fight on the legislature however, is close. McKinley can carry the state by from 8,000 to 10,000 and the Republicans still lose the legislature. But it is my belief that the Republicans will win by 15,000 votes."

Hopeful of Maryland.

With regard to Maryland, Mr. Smith

is exceedingly hopeful. "Within two weeks there has been a

HELP FOR WOMEN

WHO ARE ALWAYS TIRED.

WHO ARE ALWAYS TIRED.

"I do not feel very well, I am so tired all the time. I do not know what is the matter with me."

You hear these words every day; as often as you meet your friends just so often are these words repeated. More than likely you speak the same significant words yourself, and no doubt you do feel far from well most of the time. Mrs. Ella Rice, of Chelsea, Wis., whose portrait we publish, writes that she suffered for two years with bearing-down pains, headache, backache, and had all kinds of miserable feelings, all of which was caused by falling and inflammation of the womb, and after doctoring with physicians and numerous medicines she was entirely cured by

is monumental that Lydia E. Pinkham's Vegetable Compound is the

first of the two registration days indicates that the Republicans are aroused. The total registration is but little below the phenomenal figures in 1893. Next week Tuesday, the second registration day, the managers expect the figures of four years ago will be passed. Strong Republican wards show heavy gains With but two exceptions the Democratic wards made a poor showing, and in these two instances the good showing was indicative of the personal ambition of a certain cog in the Democratic machine, rather than of interest in the

The Literary Bureau.

One of the best conducted departments in the Republican national camp is the literary bureau. Under the supervi-sion of Secretary Heath over one hundred columns of matter for the newspapers are Issued each week. And it is such matter that the newspapers use. The literary bureau has shown by facts and figures the prosperity of all classes in the country, demonstrated the lesson of prosperity in a hundred ways, and has issued whole volumes of interviews with United States senators, representatives and business men of prom-inence. Last week from this department was issued a great sheet carrying the names of 581 men who had deserted Bryan for McKinley, This week another sheet was issued with more than 400 more names. The Democratic national committee went into this line of business some weeks ago. Up to date it has given out but fifty-five names of converts to Bryan.
